

Eftirfarandi aðilar hlutu styrk úr Jules Verne sjóðnum 2003-2005

Björn Þór Jónsson, Háskólinn í Reykjavík

Integrating Efficiency and Effectiveness in Content-Based Image Retrieval Systems
500.000.-

Freysteinn Sigmundsson, Norræna eldfjallastöðin

Deformation and behavior of Icelandic and French volcanoes studied by fluid dynamical models
500.000.-

Ólafur Arnalds, RALA

SAND-MARS, Erosion and weathering of volcanic rocks in Iceland: Application to the understanding of the surface of Mars
500.000.-

Þorsteinn I. Sigfússon, Háskóli Íslands

Heiti verkefnis vantar
500.000.-

Helga Gunnlaugsdóttir, Rannsóknastofnun fiskiðnarins

Seacom-health (Functional components for human health from seafood by - products)
500.000.-

Guðný Björk Eydal, Háskóli Íslands

Same-sex copules and the registration of their unions
350.000.-

Thomas Philip Rúnarsson, Háskóli Íslands

Evolutionary learning with kernels
500.000.-

Jón Atli Benediktsson, Háskóli Íslands

Segmentation of satellite images using morphological classification
400.000.-

Þorvaldur Þórðarson, Háskóli Íslands

The Holocene eruption history of Hekla and Myrdalsjökull volcano (Katla caldera), South Iceland: Eruption mechanisms, magma evolution and environmental impact
500.000.-

Haraldur Ólafsson, Veðurstofa Íslands

SNAEFFELS: SNow Avalanche EFFects Linked with Snowdrift
400.000.-
